

The 'Powersports Initiative' feature for BRP Bombardier allows F3 part searches expanded to other BRP dealers via their networked database. In this example BOMP (Bombardier) will be used. The menu tab option to search 'Other Locations' in the F3 'Parts Search Tool' will only display when there are not enough parts in inventory at the current location to fill the order.

1

To set-up the feature, from the 'Infinity > System Configuration' > '3<sup>rd</sup> Party Interfaces' menu choose the 'Powersports Initiative' button.

2

Next, the 'Powersports Initiative Communications Management' screen will display. Under 'Line Selection' > 'Infinity Lines' choose your 'Infinity Line' for BRP Bombardier. In this example the line code is 'BOMP'.

Powersports Initiative Communications Management

**Line Selection**

- Connects your lines to the appropriate manufacturer.
- Click on one or more Infinity lines
- Click the corresponding manufacturer button
- Click on the item to remove
- Click the Back button

Enter the dealer number

Manufacturer	Dealer Number
Polaris Parts	5432100

4

Start the Infinity 'Parts Search Tool' by pressing 'F3' shortcut on the keyboard. In this example the 'Search For' value of 'brp\*' is entered and a 'Line Filter' of 'Bombardier Parts (BOMP)' is selected. When the 'Part Number' button is clicked a list of parts matching the search criteria are displayed. This example reports 'Available' quantity of '1' and 'Qty Ordered' of '1'. The right-hand values are empty.

5

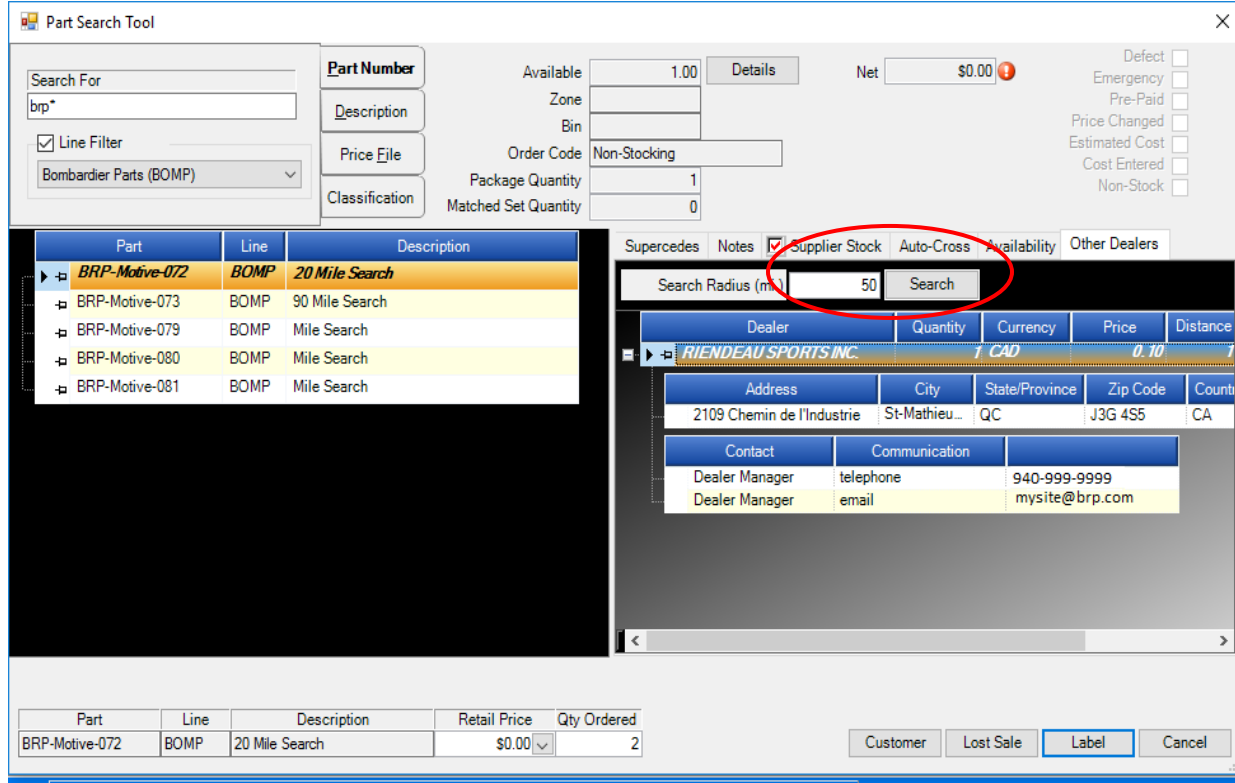

Using the previous example, if the 'Qty Ordered' is increased to '2' then the 'Other Dealers' tab is automatically added to the form next to the 'Availability' tab and the 'Supplier Stock' tab is flagged with a check mark. This feature alerts the user that one matching part is available at another location.

The screenshot shows the 'Part Search Tool' window. On the left, there's a search bar with 'brp\*' and a 'Line Filter' dropdown set to 'Bombardier Parts (BOMP)'. Below this is a list of search results for 'BRP-Motive-072' through 'BRP-Motive-081', all with 'BOMP' as the line and 'Mile Search' as the description. On the right, there's a details section with fields for 'Available' (1.00), 'Zone', 'Bin', 'Order Code' (Non-Stocking), 'Package Quantity' (1), and 'Matched Set Quantity' (0). There's also a 'Net' field showing '\$0.00' with a red exclamation mark. Below the details section are several tabs: 'Supplier Stock' (checked), 'Auto-Cross', 'Availability', and 'Other Dealers' (highlighted with a red circle). The 'Other Dealers' tab shows a table with columns 'Part', 'Description', 'Line', 'Quantity', and 'List'. It contains one entry: '207108544', 'BOMP', '1', and '\$0.10'. At the bottom, there's a summary table with columns 'Part', 'Line', 'Description', 'Retail Price', and 'Qty Ordered'. It shows 'BRP-Motive-072', 'BOMP', '20 Mile Search', '\$0.00', and '2'. A red arrow points to the 'Qty Ordered' field. To the right of the summary table are buttons for 'Customer', 'Lost Sale', 'Label', and 'Cancel'.

Part	Line	Description	Retail Price	Qty Ordered
BRP-Motive-072	BOMP	20 Mile Search	\$0.00	2

6

Continuing with this example, when the user clicks on the 'Other Dealers' menu tab a 'Search Radius' button appears with a box to enter mileage between 1 and 100. When the 'Search' button is clicked the additional part location information is displayed as in the example below (which has been expanded by clicking the '+' sign on the left side. By expanding the view users can see contact information for the 'Other Dealers'.
