

KPM Registration User Guide

Ver. 1.3

When the KPM ordering system is interfaced to Infinity, you can transmit purchase orders directly to KPM from within the business system, conduct product registration for sales, warranty claims, and look up parts on the KPM website. The following feature allow communication between the two systems.

- 1 To access the feature, log into the Infinity main menu go to 'System Configuration' > 'Configuration' > '3rd Party Interfaces' and click on the 'KPM Registration/ Stock Check' button.

--	--

- 2 A new form will display in Infinity like the example below. If the business has multiple locations, they should be listed under 'Location'. Choose a business location.

KPM Configuration

Line Selection

- Connects your lines to the appropriate manufacturer.
- Click on one or more Infinity lines
- Click the corresponding manufacturer button
- Click on the item to remove
- Click the Back button

Enter the dealer number assigned to you by KPM.

4

Select the product Lines you will be registering and/or ordering through KPM Exceptional, by highlighting the 'Infinity Lines' and pressing the 'KPM-->' button to move the entry to 'Selected Lines'.

Mark all Lines associated with the manufacturer, including Wholegoods, Parts and Accessories; if you do not mark your Parts Lines as KPM Lines, you will not be able to access the Parts Inquiry feature.

If you want to remove a line, simply highlight the Line and press the '<--Back' button.

KPM Configuration

Line Selection

- Connects your lines to the appropriate manufacturer.
- Click on one or more Infinity lines
- Click the corresponding manufacturer button
- Click on the item to remove
- Click the Back button

Enter the dealer number assigned to you by KPM.

Read and check the four KPM Precautions (Emergency Stopping, Operator Present Controls, Product Manual and Product Safety Precautions) to confirm that the items will be discussed with each customer.

If you want Registrations to be delayed up to 30 days, check the Delay Registration checkbox and use the up/down arrow keys to specify the number of days; check corresponding buttons to Enable KPM Registration and Stock Check.

6

Next, click on the OPEI Code Mapping button, located near the bottom of the window as in the example below to configure the outdoor power equipment ID.

KPM Configuration

OPEI Code Mapping

OK Cancel

From the table on the left, select each of the product Lines you will be ordering, then highlight the corresponding code in the table to the right; press the 'Map' button to link the entries. In this example Briggs & Stratton is mapped between Infinity and OPEI Manufacturer Code. Click the 'Save' button to keep settings.

OPEI Manufacturer Code Mapping

Code	Description	OPEI Code
BRGP	Briggs & Stratton Parts	BRG
BRPP	Briggs Power Products	BRG
BWN	Brown Manufacturing Parts	
CAR	Carlton Bars	
CASW	Case Wholegoods	
CCW	Crop Care Wholegoods	

Map

Clear

OPEI Code	Description
BRG	BRIGGS & STRATTON
BRN	BRAUN
BRO	BROUWER
BRR	BREUER TORNADO
BTP	BENDIX TRUCK SERV
BUC	BUCCANNER

Auto Map Clear Mapping Reload OPEI Codes

Close Save

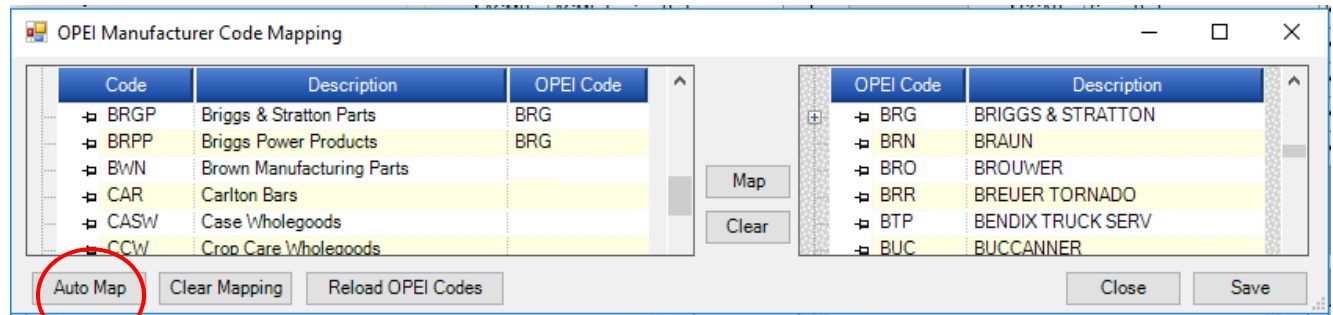

7

Instead of linking the Lines individually, you can also use the 'Auto Map' function; this will automatically link all of your **Infinity** product Lines with their corresponding OPEI Code. Once the process has completed, carefully review the mapping, to make sure it is correct.

Unlink an OPEI Code from its corresponding **Infinity** Line by highlighting the Line in the left-hand box and clicking the Clear button.

Use the Clear Mapping button if you need to erase all of the links to start over.

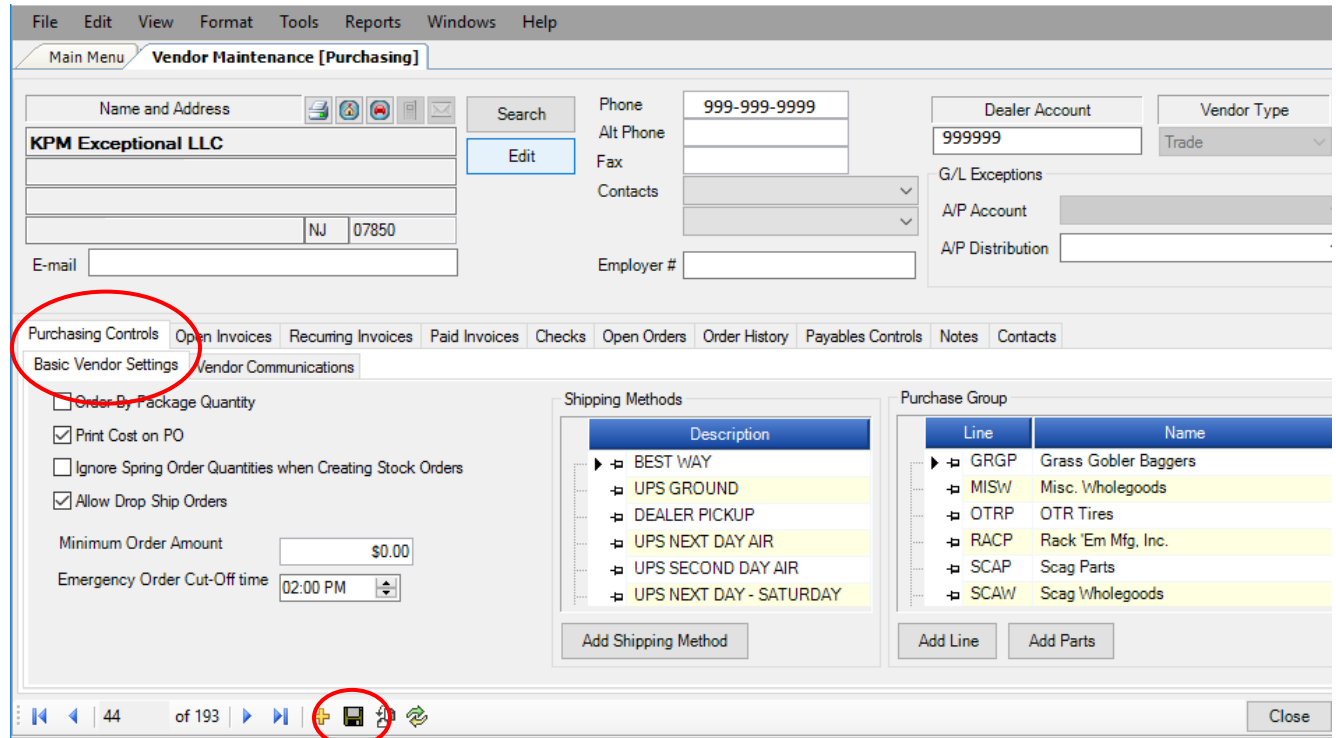

'Save', and then 'Close' the Mapping window.

8

Next, set up the vendor maintenance and purchasing.

Open 'Accounts Payable' > 'Vendor Maintenance' > ' or open 'Products and Services' > 'Inventory' > 'Purchasing' to navigate to vendor KPM. When the 'Vendor Finder' form appears enter 'KPM' in the 'Vendor' box and choose 'KPM'.

Select the 'Purchasing Controls' > 'Basic Vendor Settings' tab.

Designate at least one Shipping Method.

Add the Product Lines that are purchased from KPM to the Purchase Group.

Click the 'Save' icon at the bottom of the form.

9

Next, choose the 'Vendor Communications' tab.

Change the Communications Protocol from None to KPM if necessary.

The screenshot shows the 'Vendor Maintenance [Purchasing]' interface. The 'Vendor Communications' tab is highlighted with a red circle. The 'Communication Protocol' is set to 'KPM' and 'Enable Protocol' is checked. The 'Account Number' is '999999' and the 'Location Code' is 'MyLocation'. The 'OPEI Code Mapping' button is visible.

Save the Vendor record.
